

Adding PFT as a token to MetaMask Wallet

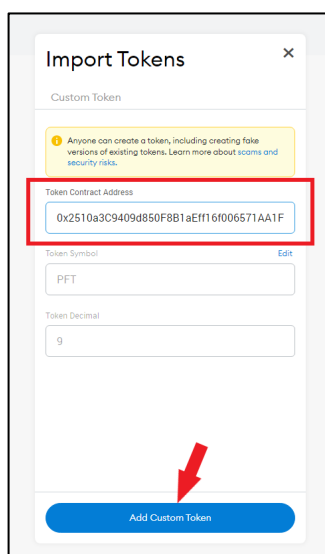

This section describes how you add the Pest Free Token to your Trust Wallet. To do this you will need to have the following contract address so that it can be pasted into the address field. The contract address you require is:

0x2510a3C9409d850F8B1aEff16f006571AA1F852E

1. From the MetaMask main screen ensure the network is '**Smart Chain**' then tap the '**Import Tokens**' link.

2. Paste in the PFT contract address **0x2510a3C9409d850F8B1aEff16f006571AA1F852E**
The PFT token details will auto populate the remainder of the fields. Click **Add Custom Token**.

3. Click **Import Tokens** to complete the import.
