

# Adding PFT as a token to Trust Wallet

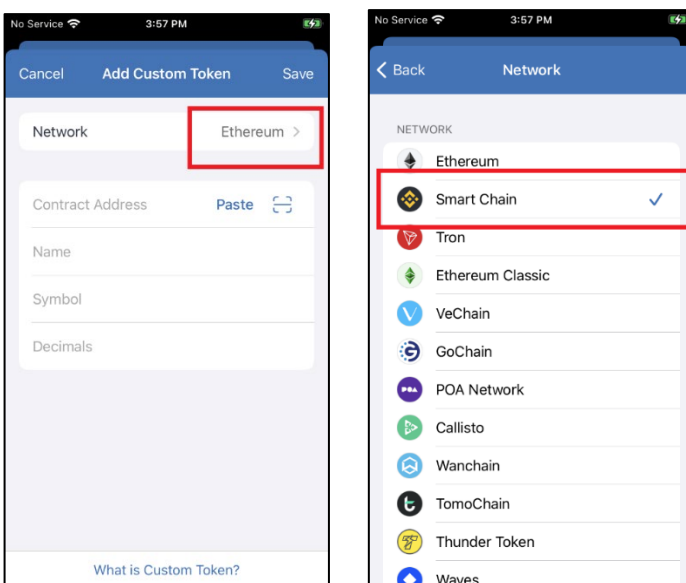

This section describes how you add the Pest Free Token to your Trust Wallet. To do this you will need to have the following contract address so that it can be pasted into the address field. The contract address you require is:

**0x2510a3C9409d850F8B1aEff16f006571AA1F852E**

1. From the wallet main screen tap the **configure symbol**. In the search box type PFT. When PFT does not appear, tap **Add Custom Token**.

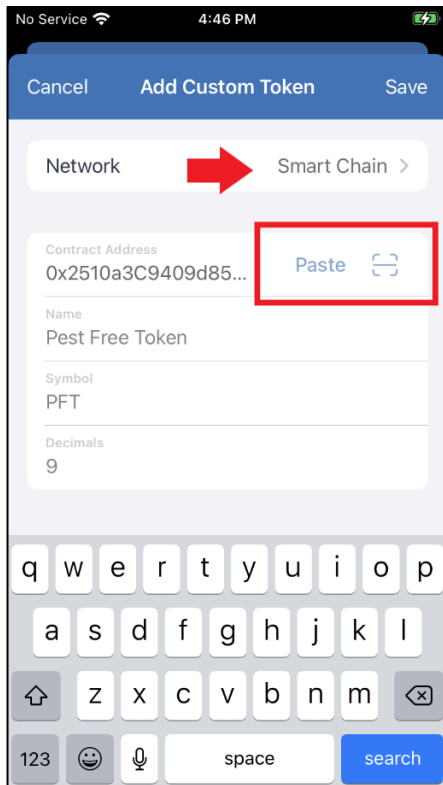

2. Tap on the network which by default comes up as **Ethereum**. Select **Smart Chain**.

3. Paste in the PFT contract address **0x2510a3C9409d850F8B1aEff16f006571AA1F852E**

The PFT token details will auto populate the remainder of the fields.

0x2510a3C9409d850F8B1aEff16f006571AA1F852E ✕

4. Tap **Save** or **Done** at the top right and the token is now added into the Trust Wallet.
